DETAILED ACTION

Drawings

1. The drawings were received on 3/20/2008. These drawings are unacceptable because the applicant has amended the specification to include the reference numeral "8". Therefore, the description now includes the reference numeral "8" now un-included in the drawings.

Specification

2. The abstract of the disclosure is objected to because of its length. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 25 and 32-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Regarding claim 25 the applicant discloses, "The device of claim 21, wherein said article delivery system includes at least one vertical track upon which **said vacuum article retrieval system** is displaced." There is no said vacuum article

retrieval system of claim 21. Therefore, there is insufficient antecedent basis for this limitation.

- Regarding claim 32 the applicant discloses, “on receipt of a request to dispense an article entered by a user via the user interface, **actuating said article delivery system is actuated to deliver** a requested article to said dispensing outlet and **the current credit** of the user...”. Should the word “actuating” be removed because said article delivery system is actuated? The wording is unclear. Furthermore, there is insufficient antecedent basis for the limitation “current credit”.
- Claims 33-38 depend from claim 32.

Allowable Subject Matter

5. Claims 21-24 and 26-31 are allowed.
6. Claims 25 and 33-38 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
7. Claim 32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
